Adjusted EBITDA	179.7	151.4	18.7	19.9
Adjusted EBITDA margin in %	23.8	23.0	80bps	100bps

¹⁾ The revenues of the divisions include intercompany revenues.

Revenues in the Plastics & Devices Division in the third quarter of the financial year 2023 came to EUR 260.7m, up from EUR 243.9m in the same quarter in the prior year. On an organic basis — meaning without foreign exchange rate effects — revenues increased by 8.7%. The foreign exchange rate effects resulted mainly from the change in the US dollar against the euro.

Demand for containment solutions and pens, as well as the engineering and tooling business, made the most significant contribution to the positive revenue trend quarter on quarter.

Adjusted EBITDA was 8.0% higher year on year, or up 11.4% on an organic basis. The adjusted EBITDA margin improved slightly by 20 basis points from 24.1% to 24.3%. This increase also stemmed from an improved containment solution product mix and from the medical device business.

Revenues ¹⁾	689.7	628.4	9.7	10.5
Adjusted EBITDA	139.2	117.1	18.9	23.2
Adjusted EBITDA margin in %	20.2	18.6	160bps	210bps

¹⁾ The revenues of the divisions include intercompany revenues.

The Primary Packaging Glass Division generated revenues of EUR 228.0m in the third quarter, matching the very strong revenues seen in the same period of the prior year. Adjusted for foreign exchange rate effects, revenues were up by 2.6% year on year. The foreign exchange rate effects resulted mainly from the change in the US dollar against the euro.

The pharma and cosmetics business performed well overall against the backdrop of a strong prior-year quarter. This positive development compensated for the temporary decline in demand for injection vials after the Covid-19-pandemic. The positive performance so far in the cosmetics business in the current financial year continued in the third quarter of the financial year and led to a considerable year-on-year rise in revenues in this business that was largely attributable to the higher demand for our high-value cosmetics solutions.

Adjusted EBITDA increased sharply by 12.3% year on year, or by 19.8% in organic terms. The adjusted EBITDA margin improved by 240 basis points to 21.6% from 19.2% in the prior year's quarter. The increase was due to solid business development overall and the business units' improved product mix.

The change in the "Corporate functions/consolidation" item is influenced by a number of factors. No material circumstances were included in this item in the reporting period.

Free Cash Flow

In EUR m	9M 2023	9M 2022	Change
Cash flow from operating activities	145.0	79.9	65.1
Net capital expenditure (before M&A activities)	-200.6	-174.7	-25.9
Free cash flow before M&A activities	-55.6	-94.8	39.2

The substantial EUR 65.1m improvement in cash flow from operating activities to EUR 145.0m resulted mainly from the change in net working capital and from the increase in adjusted EBITDA year on year. The change in net working capital is also partially attributable to customer prepayments for capacity expansions, which stood in contrast to higher interest payments for floating-rate debt and increased prepayments for income taxes, among other factors. Considering the effects mentioned above, free cash flow before M&A activities improved significantly by EUR 39.2m to EUR -55.6m.

Net capital expenditure included payments received from government grants of EUR 30.1m (9M 2022: EUR 3.4m).

Capital expenditure in the Plastics & Devices Division focused on the expansion of syringe capacities in Germany, Mexico, and the Republic of North Macedonia; capacity expansion in plastic business in North America; and the extension of the portfolio of pharmaceutical and medical products in Germany and Czech Republic.

Capital expenditure in the Primary Packaging Glass Division mainly pertained to the capacity expansion for glass vials in North America, which is subsidized by government grants, as well as to increases in production capacities in Belgium and tools for customer orders in Germany.

Note regarding the rounding of figures

Due to the commercial rounding of figures and percentages, small deviations may occur.

Remarks on calculation

All changes in percent were calculated on a thousand-euro basis. Slight deviations may therefore occur when stating figures in millions of euros in the tables.

Note regarding the translation

This Quarterly Statement is the English translation of the original German version; in case of deviations between these two, the German version prevails.
